**RE-ELECT
SEC. RICHARDS**

**The Directors of H. B. M. A.
Make No Change in
Secretary.**

**WILL MAKE THIRD TERM
Committees For Year Will
Be Appointed Friday
Night.**

J. W. RICHARDS.

John W. Richards was re-elected secretary of the Hopkinsville Business Men's Association at the meeting of the directors held Monday night for the purpose of electing a secretary for the year. This will make Mr. Richards' third term as secretary. He filled the unexpired term of C. H. Bleich and was elected to the term which has just been completed.

Only two nominations were made for the place, these being Mr. Richards and George DeTreville. Nine directors out of twelve were present. The vote stood seven for Mr. Richards and two for Mr. DeTreville.

On Friday night a big meeting of the association will be held, at which the committees for the coming year will be named and the plans of the

association for the ensuing term will be outlined and discussed. It is greatly desired that a large crowd be on hand, as matters of great importance are on the program.

Rural Credits Bill.

The signing by President Wilson of the rural credits bill was made a matter of ceremony. Representative Moss of Indiana and some twenty-five others were present and the president in a few words expressed his opinion of the benefits that would accrue to the farmers from the passage of the measure. He said:

"The farmers, it seems to me, have occupied hitherto a singular position of disadvantage. They have not had the same freedom to get credit on their real estate that others have had who were in manufacturing and commercial enterprises, and while they have sustained our life they did not in the same degree with some others share

in the benefits of that life.

"Therefore, this bill along with the very liberal provisions of the federal reserve act, puts them upon an equality with all others who have genuine assets and makes the great credit of the country available to them. One can not but feel that this is delayed justice to them, and can not but feel that it is a very gratifying thing to play any part in doing this act of justice.

"I look forward to the benefits of this bill not with extravagant expectations, but with confident expectation that it will be of very wide reaching benefits, and, incidentally, it will be of advantage to the investigating community, for I can imagine no more satisfactory and solid investments than this system will afford those who have money to use."

Both farmers and the investigating community will be benefited by the bill. We have no doubt this measure will prove one of the most judicious of the present administration.
